

# CILA II

**One-Day Seminar**  
**Tuesday 30 September 2008**  
**Royal College of Physicians, London**

## Why Attend?

Regulatory changes and the challenge of embedding new risk management techniques into the day-to-day operations of Life Insurance companies continue to present significant challenges for senior life actuaries. Consequently, the Life Practice Executive is pleased to announce a second 2008 seminar on Current Issues in Life Assurance (CILA). This seminar will focus on topical developments and thinking and will explore a variety of risk and capital management issues.

## Who Should Attend?

CILA is aimed at senior actuaries, certificate holders and their senior staff. The goal is to provide relatively detailed updates on current topics that could impact senior actuaries in the life assurance environment. The sessions will assume the audience has a working knowledge of the topic and so their focus will be on recent developments.
