

## Continuous Mortality Investigation

Institute and Faculty of Actuaries

### Members of the CMI Assurances Committee

The Continuous Mortality Investigation (CMI) seeks to produce high-quality impartial analysis, standard tables and models of mortality and morbidity for long-term insurance products and pension scheme liabilities on behalf of subscribers and, in doing so, to further actuarial understanding. The CMI's work is undertaken within a UK private company – CMI Limited – which is wholly owned by the Institute and Faculty of Actuaries (IFoA). More information on the CMI's work is available via [the IFoA's website](#).

The CMI is seeking to appoint additional volunteers to the CMI Assurances Committee which oversees the CMI's analysis of mortality and critical illness claims experience under Term and Whole of Life assurances. We are looking for volunteers with a high level of interest in mortality and morbidity research, and a commitment and enthusiasm to continue the long-standing work of the CMI in this field.

### “Task” Specification

The Committee members will collectively, and working in conjunction with the CMI Secretariat staff, play their part in helping the CMI to deliver the following activities:

- oversee the continued progress of the Assurances investigation and ensure it is working towards outputs for the benefit of CMI Subscribers and the IFoA;
- ensure the Committee delivers a number of outputs as agreed annually with the Executive Committee;
- publicise the work of the Assurances Committee; in particular at IFoA conferences; and
- identify emerging issues, including horizon scanning, and 'hot topics' of relevance to the Assurances investigation.

View the [Terms of Reference for the Assurances Committee](#).

### Reporting:

The role-holders will report to the Chair of the CMI Assurances Committee.

### Tenure

Committee membership is normally for four years, with the potential to renew for a further four years. We hope to make these appointments in March / April 2020.

### Time Commitment

This would equate to approximately half a day per month, although this could be a little higher in the first year given the work plans for 2020/2021. In particular, we expect to progress some areas using sub-groups of the Committee; with each member volunteering for one or two areas based on their particular areas of interest and availability.

Much of the time commitment can be carried out at a time and day that best suits the volunteer but:

- The Assurances Committee meets up to four times a year. Meetings are generally three hours in length and attendance can be by conference call or in person (in central London). Dates of these meetings are agreed well in advance.
- Ad hoc meetings may be needed on the particular strands of activity that each Committee member is involved in. Such meetings may be arranged at shorter notice, at convenient times.

Continuous Mortality Investigation Limited (“CMI”) is registered in England & Wales (Company number: 8373631) with its Registered Office at: 7<sup>th</sup> floor, Holborn Gate, 326-330 High Holborn, London, WC1V 7PP

## “Person” Specification

The members will be selected by the Chair of the Assurances Committee, subject to approval by the CMI Executive Committee. They are likely to be a Fellow or Associate of the IFoA working in a life insurance company, reinsurance company or consultancy advising such companies, or in academic research.

It will be helpful if the Committee members have:

- some experience of how CMI tables and other outputs are used within UK life insurance companies;
- an interest in, and willingness to develop, technical understanding of statistical techniques and their practical application; and
- a high level of interest in mortality and morbidity research and the role of the CMI.

### **In return, the volunteers will:**

- be able to influence and contribute to the work of the CMI Assurances Committee;
- be provided with excellent professional support and assistance during their tenure on the CMI Assurances Committee;
- further develop their technical expertise in this area;
- further develop an effective network of contacts across the industry; and
- have the opportunity to claim CPD for some of the activities associated with this role if they meet the criteria set out in the CPD Scheme.

**February 2020**
