3

Role of the leader

Common traits in effective leaders

- **Understand people** – understand what motivates and individual strengths
- **Confident** - open to challenge and receiving feedback themselves
- **Coaches others** – makes time to coach and mentor. Provides high-quality and objective feedback
- **Celebrates success** – recognises and rewards good work
- **Sufficient understanding of detail** - understands issues without getting into excessive detail

5

Encouraging diversity in teams

Exploring what diversity actually means

- Traditional view of diversity normally focused on gender and racial profile
- True diversity achieved through broad range of expertise and experiences
- Need mix of skill sets to achieve success:
 - Technical experts
 - Marketing specialists
 - Modellers
 - etc
- Difficult to measure diversity in this way!

6

Encouraging diversity in teams

The benefits of achieving a diverse team

- Broad range of cultures brings new insights
- Different ways of looking at, and tackling, complex issues
- More efficient and effective working
- Ensuring highly skilled specialists focused on bringing insights rather than running processes
- Ensuring business remains sustainable in the long-term

All combined to generate more innovative and efficient solutions

7

Encouraging diversity in teams

Bringing diverse teams together

- Committed to a common goal
- Individual accountability, combined success
- Know each other and play to strengths
- Efficient decision-making
- “One Voice”
- Great communication
- Celebrate Success

9

Managing and rewarding talent

Getting the best out of actuaries

- Challenge (intellectual and delivery)
- Moving people around – keeps things fresh
- Encourage people to play to strengths and coach to address (significant) weaknesses
- Recognise that some actuaries don't want to manage and offer alternative value adding career paths
- Allow specialists to focus on their area of expertise where they can add the most value
- Actively seek a mixed skill set within teams

10

Managing and rewarding talent

Getting the most from non-actuaries

- Increasing demand for the best non-qualified technicians
- Recognise value that non-qualified technicians can add - cultural shift needed in some organisations
- Offer clear career paths for good technicians:
 - training and development
 - Removal of “glass ceilings”
 - Recognise value being added through promotions and appropriate reward structures

Do you prefer some tasks to be done only by a qualified actuary ?

11

Managing and rewarding talent

Recognition and reward

- Always recognise a good job
- Develop and reward a culture of excellence
- Learn lessons from other cultures
- Pay scales to accommodate the highest performers:
 - Actuarial experts who don't want to manage shouldn't hit a glass ceiling on pay
 - Difficulties in consistently rewarding a team of specialists
- Reward based on behaviours and not just deliverables

13

Developing effective leaders

Management versus leadership

14

Developing effective leaders

Some of it is about you!

- Impressions matter
- People hear what you say
- But, they feel your values
- Know what you stand for
- And be a role model

© 2012 The Actuarial Profession • www.actuaries.org.uk

15

Developing effective leaders

Positive development

- Development plans normally focused on negatives – resulting in little “buy-in”
- A fresh approach...stretch yourself by develop strengths and do the things you enjoy
- Be aware of, and manage, your weaknesses
- Set out to develop mindset rather than skillset
- Create a focused development plan...
“How would you want someone to describe you in one sentence?”

16

Developing effective leaders

Development plan - What are you going to do?

- Focus development plan on what you really want to do
- Take personal responsibility for objectives
- Create your own niche...

© 2012 The Actuarial Profession • www.actuaries.org.uk

17

Developing effective leaders

Making time for your career

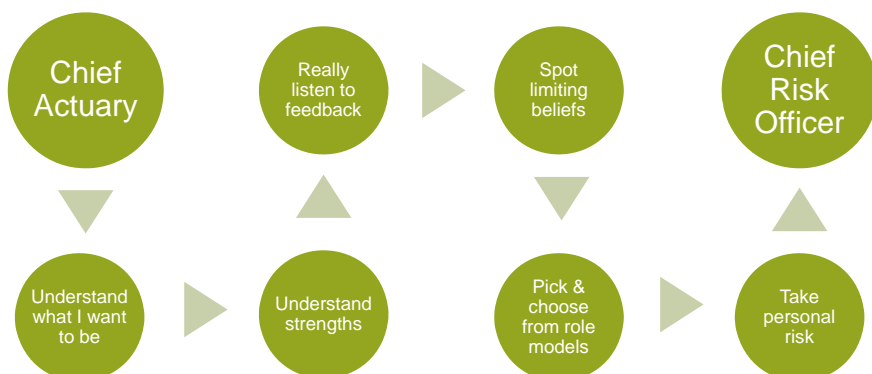

- Common complaint is insufficient time for aspirational development
- This should be your priority!
- Identify where you want to go in your career....
...and develop a plan to get there
