Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. Changes in the rates of exchange between currencies may cause the value of investments to gu pand down. Fluctuation may be particularly marked in the case of a higher volatility fund and the value of an investment may fall suddenly and substantially. Levels and basis of taxation may change from time to time.

Mandates we manage may be exposed to finance sector companies, as a service provider or as counterparty for financial contracts. In recent months, liquidity in the financial markets has become severely restricted, causing a number of firms to withdrawn from the market, or in some extreme cases, becoming insolvent. This may have an adverse affect on the mandates we manage. Any research in this document has been procured and may have been acted on by BlackRock for its own purpose.
