

Figure 2 - Resource and environment papers

1. Resource and Environment Issues: A Practical Guide for Pensions Actuaries (Published May 2017).
2. Covenant: Supplementary paper on allowance for Resource and Environment R&E in covenant assessments – considering the role of pensions actuaries in supporting trustees in this area (published October 2017).
3. Financial variables: Supplementary paper on Resource and Environment (R&E) when setting financial assumptions plus scenario analysis of potential impact on pension scheme funding (due to be published late 2018).
4. Mortality: Supplementary paper on Resource and Environment (R&E) when setting mortality assumptions – with technical detail on temperature and air pollution-related deaths (published November 2017).
