Data: Mountains of it

Data: growth and value

Data is the oil of the next generation

? Are we using the data we have effectively

2016 study by IBM Marketing Cloud

90% of the world's data created in the previous 2 years

Most valuable global companies

Alphabet, Amazon, Apple, Facebook and Microsoft

Q1 2017:
\$25 billion Net Profit

- The Economist

The connected world

- 2017 Global review by Hootsuite and We Are Social
 - Half the world now uses the internet
 - 4.9 billion unique mobile users
 - 2.5 – 2.7 billion social media users
- If you are connected you are generating data

5

Access to Data

Customers

- Policy or contract details
- Limited contact points

Policy Information

- Hard copy documents / files
- Some electronic capturing / SQL database

Excel spreadsheets

- Used for data storage
- Models and data visualisation

6

Access to Data

	360° view of customer <ul style="list-style-type: none">• Numerous contact points• Vast amounts of data
	Data warehouse <ul style="list-style-type: none">• Structured datasets
	Dashboards <ul style="list-style-type: none">• Better data visualisation• Faster access to data

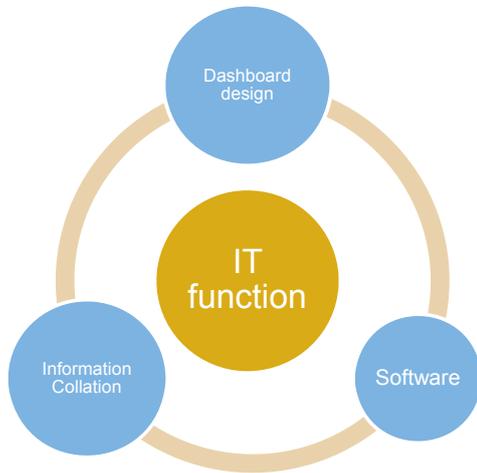

Overview

Access to Data 	Business Intelligence	Skills
Full Picture	The power of Advanced Analytics	

Business Intelligence

- BI is evolving
- Moving to include predictive aspects
- Tools have largely remained unchanged
- Require speed of access

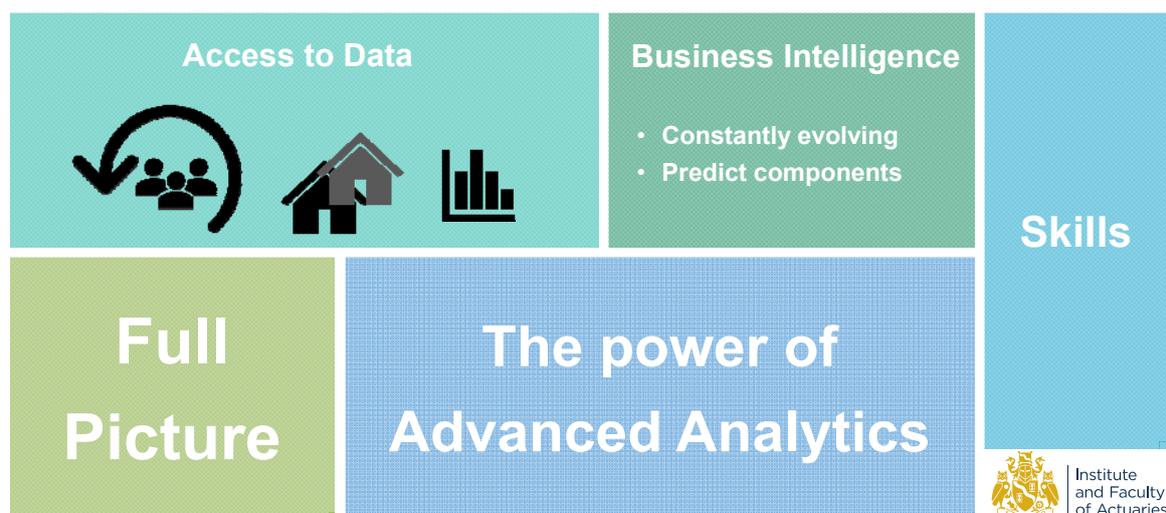

Business Intelligence trends

- BI-survey.com analysis of 2770 BI professionals
 - 2018 saw increase in importance of data and data quality
 - Reduced importance for all other topics from 2016 survey
- The increasing use of AI (machine learning)
- The increasing importance of data visualisation
- Data protection and regulation (cost of data)
 - POPI Act's in many countries
 - Facebook in news recently
 - New risks arising through use of technology

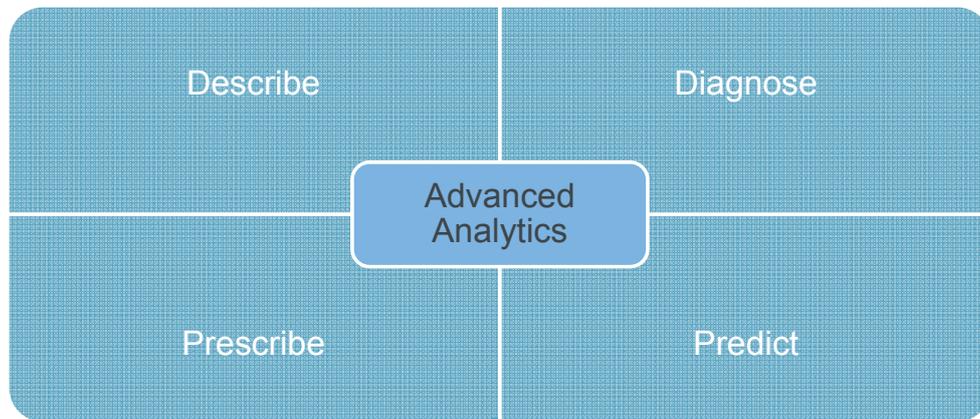

Business Intelligence: The story

- Increasing pressure to make decisions faster
- Current reporting is largely outdated
- Easier to understand a story than to read a technical report
- BI professionals evolving to become story tellers through dashboards

14

Sales analytics

- Large financial institution
- High response rate
- Low take-up rate
- Time and money

- Using business modelling and advanced analytics
- Split into High, Medium and Low
- Focus on High likelihood leads

- Increased take-up rate by 20%
- Increased average revenue by 6%
- 10x return on investment
- Understood drivers
- Rapid iterative design

Skills

- No clear definition of a data scientist
- 2014 Article by Linda Burtch, Burtch Works
 - Technical Skills: Analytics
 - Technical Skills: Computer Science
 - Non-Technical Skills
- Difference between Business Intelligence and Data Science

59% of all Data Science and Analytics job demand is in Finance and Insurance, Professional Services and IT.

- "The Quant crunch"
by IBM, Burning Glass Technologies,
Business Higher Education Forum

Primary goal of explaining and predicting patterns.

- Sean McClure

Revenues for big data and business analytics spend will reach \$210 billion by 2020

- International Data Corporation (2017)

Skills: Where is the demand?

Demand for both Data Scientists and Data Engineers expected to grow 39% by 2020.

- "The Quant crunch"
by IBM, Burning Glass Technologies,
Business Higher Education Forum

Big difference between using data to create charts and graphs and actually combining and transforming data

- Seth Demsey

Computer scientists and programmers combined with engineers and business professionals.

- Accenture Institute for High Performance

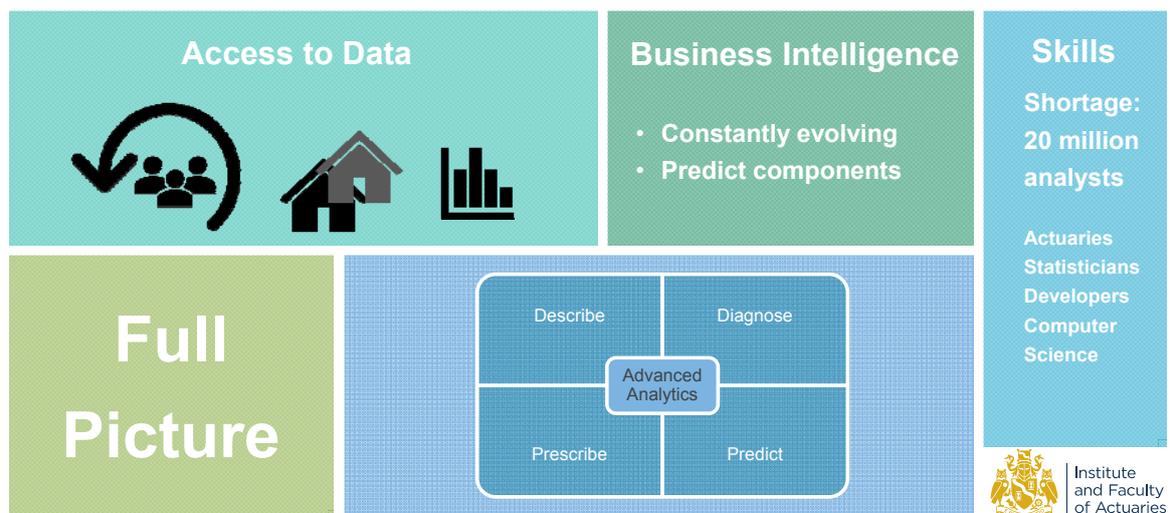

Skills

- Specific skills required
- Shortage of deep analytics skills globally
- Require a mix of skills both analytical and domain specific
- Increasing demand for skills
- The value of Actuaries

Overview

The full picture

- IT systems are constantly evolving and improving
- Ability to collect and access data
- Automation of data processing
 - Data regulation, regulatory reporting
 - Management of data
 - Data ownership
- Automation of processes to view information (robotic process automation)
- Data and result visualisation

Overview
