# Agenda

- A4: Risk reduction or planning your route to buy-out
- Once a DB plan closes to new entrants it is heading for buy-out and this is accelerated when accrual for existing members ceases.
   Managing a plan through to buy-out calls for a change of focus and co-ordinated application of skills traditionally spread across pensions, investment and insurance actuaries. This session will explore how this is done.

### A journey starts with...

- 1. Prepare for the journey (data cleaning)
- 2. Pack the right equipment (know the tools at your disposal)
- 3. Work out where you are going (agree a target)
- 4. Take a map (clear and effective decision making)
- 5. Take a mobile (know when to bring in different skill sets)
- 6. Expect to get lost (market conditions will <u>not</u> behave as you expect)
