

SINGAPORE ACTUARIAL SOCIETY

Resorts World Sentosa, Singapore

9th General Insurance Conference Disrupt or Be Disrupted 25th – 26th May 2017

If you are not moving forward, you are not standing still. The world seems to be changing at an accelerating pace. Constructive destruction or disruption is all around us. New industries are springing up almost on a daily basis, while existing household names are fading or losing their lustre. Are the insurance and reinsurance industries, and the actuarial profession itself, likely to be a disruptor or to be disrupted?

The conference is open to all general insurance professionals. There is a good mix of technical and non-technical papers so anyone with an interest in General Insurance issues in the region will benefit from attending.

This programme has applied for listing on the Financial Training Scheme (FTS) Programme Directory and is eligible for FTS claims subject to all eligibility criteria being met.

Please note that **in no way** does this represent an endorsement of the *quality* of the training provider and programme. Participants are advised to assess the suitability of the programme and its relevance to participants business activities or job roles.

The FTS is available to eligible entities, at a 50% funding level of programme fees subject to all eligibility criteria being met. FTS claims may only be made for programmes listed on the FTS Programme Directory with the specified validity period. Please refer to www.ibf.org.sg for more information.
