Data Science and Lifelong Learning

Patrina Effer

14 June 2018

Corporate Plan 2018/2019

Lifelong learning

An effective professional needs a relevant and contemporary skill set. Through research, thought leadership and the provision of a flexible and high quality learning experience, we will support the goals and ambitions of our members and staff throughout their careers, wherever they are located. We will embrace innovation so that our learning offer is relevant, market leading and delivered to contemporary standards. We will develop actuarial communities around the world by being inclusive, accessible and supportive, in line with our values.

- Provide learning offerings which enable our members to be effective in the data science domain, in line with our strategic direction

substantially lower, while maintaining the stringent quality of our examinations

- Building a portfolio of lifelong learning opportunities and promoting the benefits of this lifelong learning to our members and stakeholders
- Promoting professionalism and professional skills globally.

- Deliver a new development scheme for staff, helping to embed lifelong learning in our own organisation
- Provide learning offerings which enable our members to be effective in the data science domain, in line with our strategic direction
- Review our learning support pilot in South East Asia and explore where this could be extended to other subjects and geographies

- Deliver new lifelong learning opportunities and widen their reach, so that they are relevant and accessible to our diverse global membership
- Support CAA Global Ltd in the successful promotion of the Certified Actuarial Analyst (CAA) qualification
- Continue to deliver thought provoking, relevant professional skills training material and conclude and draw learnings from the Professionalism Lecture Series
- Provide opportunities for debate and discussion within and outside the profession.
- Increased demand for the CAA qualification with increasing membership in prioritised global markets (measured by CAA statistics)
- Positive feedback on Professional Skills material and Professionalism lectures (measured by average feedback scores).

In future years we will see:

- A qualification framework that provides a greater level of flexibility for our members, including an increased number of members choosing to qualify at the core level
- Overall pass rates rising globally, while the

engaged and accredited universities around the world (measured by numbers of prioritised university partners)

learning opportunities, by members with demonstrable levels of high satisfaction

- High standards of professionalism worldwide.

KPIs

7/10

Student satisfaction: to achieve at least 7/10 in the student satisfaction survey.
