

Certified Actuarial Analyst

Meeting the Growing Need for Professional Analysts

The Certified Actuarial Analyst (CAA) is an international professional qualification offered by CAA Global to qualify those who excel in technical and analytical skills as trained analysts, giving financial institutions qualified professionals to fill key roles.

The CAA qualification equips professionals with financial business, analytical and modeling skills. The qualification ensures that those working in technical roles within the insurance and financial services industries have the required skills and methodologies to allow businesses to provide assurance to regulators, stakeholders and the public at large.

Becoming a CAA

The CAA is most suited for those interested in financial and statistical work.

Whether you are currently working in an analytical role as a pricing analyst, data modeler or finance analyst, or trying to break into the analytics and data world, then the CAA qualification is ideal for you.

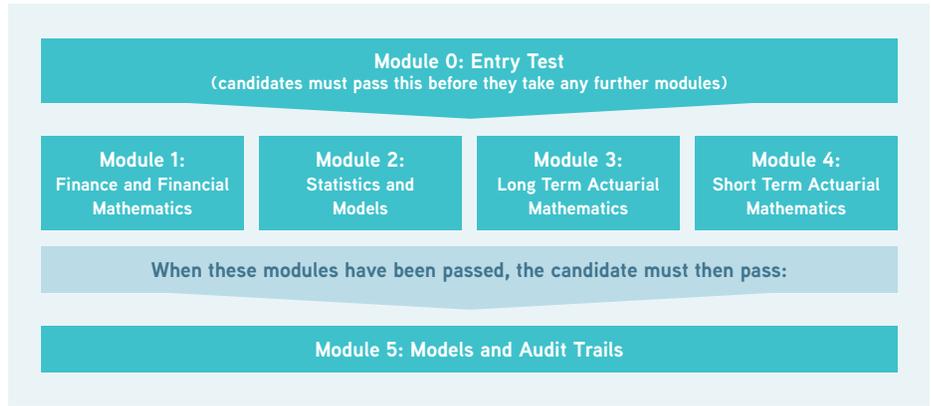

For more information visit caa-global.org or email info@caa-global.org

What does it take:

- ▮ A series of six exams
- ▮ Completion of an online module focused on professionalism and how to build sound judgment skills when confronted with ethical situations
- ▮ Demonstrate at least one year of relevant work experience.

Qualified CAAs will have the necessary mathematical skills and understanding enabling them to:

- ▮ Carry out the calculations underpinning the determination of the premiums that need to be charged for products, schemes, contracts and other arrangements that provide benefits on contingent events
- ▮ Be effective in manipulating and analyzing data sets
- ▮ Communicate financial concepts within the work environment.

About CAA Global

CAA Global is a joint venture of the Institute and Faculty of Actuaries (IFoA), based in the United Kingdom, and the Society of Actuaries (SOA), based in the United States. Formed to offer the Certified Actuarial Analyst (CAA) qualification around the world, CAA Global educates sharp minds to meet the growing need for professional analysts, particularly in financial services.

Professional Affiliation

Those who earn the CAA qualification can affiliate with the Institute and Faculty of Actuaries (IFoA) or the SOA Center for Certified Actuarial Analysts, a newly formed subsidiary of the Society of Actuaries (SOA). These prestigious organizations provide professional development, support and a community of CAA qualification holders.

CAA qualification holders will also eventually be able to affiliate with other actuarial associations around the world as an accreditation system is developed. In offering other destination organizations for qualified CAAs, the CAA will truly become a global qualification for the actuarial profession.
