

IFoA's General Insurance Board

Background and Structure

The General Insurance Board is responsible for overseeing various technical and professional aspects of actuarial work and engaging with all relevant stakeholders, which includes its members.

The Lifelong Learning Committee (GILL), Standards and Consultations Committee (GISCC) and Research and Thought Leadership Committee (GIRTL) all report in to the Board so many volunteers would have already interacted with us either directly or indirectly over the years.

If you would like to learn more about the GI Board, please refer to the Terms of Reference, which can be found here: <https://www.actuaries.org.uk/about-us/governance-and-structure/other-boards-and-committees/practice-boards/general-insurance-board>

Objectives

Following feedback from the GI community, the Board is focussing more than ever on member value. This includes, communicating more effectively to help our constituency understand what work is being undertaken in their interests. To that end, the following objectives for 2021 have been set:

1. Develop a clear communication strategy which the Board will use to interact with the GI constituency it represents
2. Review CPD live event offerings to ensure close alignment with member interests and needs whilst continuing to be relevant, topical and engaging.
3. Create and sustain reserving, capital and pricing research groups to provide networking and support for working parties and members who have an interest in a particular technical area
4. Work with the IFoA to create a framework for the General Insurance pages of the IFoA website which reflect member needs more closely
5. Continue to operate within its Terms of Reference to oversee technical and professional aspects of General Insurance actuarial work and other related items contained therein

Communications

The GI Board will be held accountable for delivery and we will regularly update you on how we are progressing!

We have already recently launched a LinkedIn network: <https://www.linkedin.com/showcase/general-insurance-practice-area> which is growing rapidly.

If you have any questions or comments please ask any member of the GI Board:

Sameer Keshani (Chair), Stavros Martis, Amerjit Grewal, Catherine Drummond, Kevin Wenzel, Matthew Evans, Adhiraj Maitra, Camilla Bennett, Sarah McDonnell, Keith Brown, Gianmario Afeltra, Chris Bird, John Charles
