

The below table sets out the IFoA's non-exhaustive list of Relevant Authorities<sup>1</sup> for the purposes of section 2.2.2<sup>2</sup> of Actuarial Profession Standard APS X1.

This table will be updated from time to time.

The table reflects Relevant Authorities that have confirmed to the IFoA that (1) they have in place a body of standards that are substantially consistent with ISAP 1 and (2) they are content to be included in the list.

The IFoA does not assume any responsibility for those standards.

<sup>&</sup>lt;sup>1</sup> 'Relevant Authority' is defined in APS X1 as "an IAA Full Member Association (as defined by the IAA) or other regulatory entity with equivalent authority to impose standards in relation to actuarial work (for the avoidance of doubt this does not include the IAA or the Actuarial Association of Europe)".

<sup>&</sup>lt;sup>2</sup> Section 2.1 of APS X1 provides that: "*Members should ensure that their Actuarial Work is carried out in a way that is substantially consistent with ISAP 1*". Section 2.2.2 provides that Members will be deemed to have met the requirements of section 2.1 if they are "*Applying the Recognised Standards of a Relevant Authority included in a non-exhaustive list of such Relevant Authorities as may be published from time to time by the IFoA*".
