Committee for Lifelong Learning in Risk Management Terms of Reference

[formerly Risk Management ECPD Committee]

CPD and lifelong learning opportunities at qualification and beyond

- Baseline education/syllabus – learning around the ERM syllabus themes
- New ideas – linking to thought leadership and cross practice activity and enabling members to move more readily between practice areas and roles
- Technical programme content for IFoA global residential conferences and other events, including support for risk management topics in events organised by other practice areas

Support and develop the CERA qualification

- Support the Education Actuary and Engagement and Learning Team in maintaining and running the CERA seminars and CERA accreditation process and refresh materials as and when required
- Support the marketing and promotion of the credential

Fostering a sense of community – keeping risk management in the spotlight

- Providing content for the Actuary, Delta, newsletters – short, snappy articles to regular features i.e. working party outputs
- Building a bank of case studies to demonstrate how the actuarial skill set can be applied in “wider fields” and supporting movement between practice areas
- Maintain links with the people with equivalent responsibilities in other actuarial professional bodies, to share ideas and ensure mutual understanding
